Retail price list. Packing free. Customer pays transportation, shipments made by Parcel Post, Express and Motor Freight Lines. Inspection Certificate from Texas Department of Nursery Inspection accompanies every shipment. We do not ship C.O.D.

Prices quoted are rock bottom for first class plant material grown properly, handled right, adapted and acclimated. A half million plants available this season. We specialize in growing one to three year plants in gallon cans, the customer saves on transportation and in transplanting the mortality is practically nil.

Communicate with us relative to any pruning, spraying, transplanting, tree surgery, sodding, etc. Prices very reasonable.

Fourteen years at this location, making a specialty of growing and selling only young, thrifty and well balanced plants. What stock we do not grow is purchased from old established reliable growers for cash - therefore our Sunday Adv. in Classified Section of local papers show items at Special Prices.

In addition to the Nurseries, we operate a FISH WORM FARM and grow a great quantity of 'Red California Wiggle Worms' for fishermen. These worms are packed in wet moss and are available in any quantity, at any time, at \$.50 per hundred.
